

UPPER MARLBORO, Md.—July 13, 2015—Linemark Printing has installed a new MCS Perfect Match System. Celebrating 30 years in the printing/communication industry, Linemark is best known as a technology leader. With the purchase of this system, Linemark will be able to increase integrity, personalization and productivity for its clients' match mailing campaigns.

Of the company's recent state-of-the-art purchase, Linemark's Executive Vice President David Ashton said, "With the installation of our newest production line, we have expanded our precision high-speed, match mailing capabilities. This corresponds to our growing marketing and direct mail solutions business and we are excited to further improve upon our measurable deliverables and our client's overall marketing experience."

The MCS Perfect Match System is the most advanced inkjet in the mailing/printing industry. Equipped with 48 sensors and three cameras, this allows an increase in productivity by four to five times an hour. The system provides error-free matching that ensures 100 percent accuracy with verification reports for highly secure mailings. This industry demands high quality with a personal touch. MCS Perfect Match System is Linemark's new partner in helping the firm achieve its customers' goals.

About Linemark Printing

Linemark is a privately-owned and operated printing and communications company headquartered within close proximity of the Washington D.C./Baltimore Metro areas (Upper Marlboro, Maryland). Linemark is one of the fastest growing companies in the region within the communications industry. Operating 24 hours a day from a 90,000-square-foot facility, the intensely customer focused company delivers solid and innovative solutions to their client base of associations, corporations and non-profit organizations.
